

# AEROSPACE AVIATION LOGISTICS

## WHO IS PGL?

### YOUR TRUSTED LOGISTICS PARTNER FOR ALL FLIGHT-CRITICAL OPERATIONS

PGL is one of the fastest-growing, women-owned logistics companies in the world. In aerospace and aviation logistics, PGL provides dependable solutions tailored to meet your unique needs. We understand the intricacies of shipping aircraft parts, materials, and components, ensuring your supply chain operates at the highest standards of quality and efficiency. PGL's highly-dedicated team works alongside aerospace manufacturers, airlines, and MRO providers to ensure that every shipment meets all industry regulations and meets timelines, keeping your operations in the air and on schedule.

### WHAT WE OFFER

PGL offers you comprehensive logistics services, including ground transportation, air freight, intermodal, supply chain management, contract logistics, packaging and crating, government services, and ocean freight. We specialize in importing, exporting, and domestic shipping, with proven performance in aerospace, manufacturing, and time-critical sectors.

## OUR TECHNOLOGY

### PGL CONNECT: ENSURING CONTROL THROUGH PRECISION AND TRANSPARENCY

Our advanced shipping and tracking platform, PGL Connect, was specially designed to help enhance your aerospace supply chain performance. PGL Connect offers precision, transparency, and control to provide you with real-time visibility, milestone tracking, and documentation access from a single source. Our software provides you with peace of mind while empowering informed, data-driven decisions.

### SHIPPING PGL

Through our web-based shipping tools, you can quickly receive accurate rate quotes, schedule shipments, and prepare bills of lading. You can also print shipping documents, labels, and reports all from one intuitive dashboard.

### TRACKING PGL

PGL's powerful tracking software provides you with full visibility into the flow of goods across the globe, and provides automatic email notifications for shipment milestones such as pick-up, departure, and delivery.

## SERVICE OFFERING DETAILS

### TECHNOLOGY THAT CONNECTS

Track, manage, and analyze all of your logistics operations with a single, intuitive platform for greater efficiency and improved performance of your supply chain.

PGL Connect is a powerful integrated digital platform offering real-time visibility, efficient communication, and advanced analytics to streamline your logistics operations. With features like shipment tracking, automated notifications, in-app messaging, and insightful reporting, PGL Connect ensures that you have complete control and transparency over your shipments, anytime, anywhere.

### MRO SUPPORT SERVICES

- Scheduled Maintenance Logistics
- Inventory & Parts Management
- Tooling & Component Transport
- Global Coordination & Expedited Delivery
- 24/7/365 Aerospace Control Tower
- Compliance & Documentation Support
- Aircraft Parts & Components Shipping
- AOG (Aircraft on Ground) Solutions
- Scheduled & Unscheduled Maintenance
- Reduced Lead Times

### OEM SUPPORT SERVICES

- Production & Line Feed Logistics
- Engine & Component Transport
- Packaging & Custom Crating Solutions
- Import/Export & Regulatory Coordination
- Supplier-to-Factory Distribution
- Project & Program Management

### SOARING ABOVE THE REST

PGL has proudly expedited shipments for over 550 locations, including 509 branches, 14 distribution centers, and 50 service centers throughout North America. With offices across North America and China, PGL adopts an innovative and unique approach to meeting global supply chain demands of each customer. Among our many offerings is just-in-time inventory, simultaneous roll-outs, and distribution to thousands of big box retailers. From Time Definite & Time Critical Transportation, to Contract Logistics, PGL is able to effectively craft customized logistics solutions that have met or exceeded its customers' needs.
